Planned/Ongoing Activities during week 11 & 12
Luleå University of Technology

Information letter week 11-12, 2020

At the time of writing, the sun is shining over Norrbotten and the weather offers all sports holidaymakers their very best! With a little luck, the weather holds over the weekend, more snow is not expected until the middle of week 11.

Over the past week, alarms about the spread of the Covid-19 virus have overshadowed most of the news reporting. As a counterpoint to the dismal reporting, it is fun that the inauguration of the Student House has gained a lot of space in the media, more about it can be read on LTU’s website:

No one has probably missed the fact that a lot of excavation work is now underway on Campus. Currently, these are concentrated on Vintergatan, between Regnbågsallén and Universitetsvägen. In addition to this, a final inspection of the library renovation has been carried out, continued assembly of the T-pavilion is ongoing, the igloo on Tekniktorget is being completed and design planning for U & V pavilions between the C-house and the Polstjärnan is ongoing.

With kind regards
Erik Nordenskiöld
Project Coordinator
Planned/Ongoing Activities during week 11 & 12
Luleå University of Technology

Overall Campus
Nothing to report

Outdoor environment
Parkkompaniet is working on transporting snow and preparing for the upcoming snowmelt period.
There will be a lot of work going on along Vintergatan from the intersection of Vintergatan-Regnbågsallén down to the intersection of Vintergatan-Universitetsvägen.
The construction of the Igloo at Tekniktorget will be completed during week 11.

Regnbågsallén
Continued relining of wastewater and stormwater pipes along the Regnbågsallén. Hopefully the work will be completed during week 11.
The excavation work at the intersection of Vintergatan-Universitetsvägen have been started and will carry on during March. Vintergatan will not be completely closed off, but accessibility will be limited, follow signs for safe passage!
The excavation work at the intersection of Vintergatan-Regnbågsallén have been started and will carry on during March. Passage from Regnbågsallén to Vintergatan will be completely closed off. Walking is referred either through the B-house, A-house or other access roads around the A- or B-house. Follow signs for safe passage!
**Planned/Ongoing Activities during week 11 & 12**

**Luleå University of Technology**

**A/α-house**
The indoor environment investigation in the A, alfa- and alf-houses is ongoing. During week 11 and 12, investigation will focus mainly at roofs.

**B/β-house**
Final inspection of the library is performed and approved with some remarks. Measures of inspection remarks is ongoing. The disestablishment between alfa- & beta-house is performed and a smaller establishment is created between the beta-house and Polstjärnan for the remaining work.

**C-house**
Nothing to report.

**D-house**
Nothing to report.

**E-house**
Reinforcement of floors in E912 is carried out during the coming two weeks.

**F-house**
Stage 2 for the assembly of the new t Pavilion will be carried out during weeks 11 and 12. A total of 115 modules will be installed. This entails extensive construction traffic in the area with both lifting crane and trucks. Avoid Entrance F16 and F18 and choose alternative entrances if possible.

To reduce traffic in the area, the waste rooms at entrance F16 and F18 will alternately be switched off:

- W11, the waste room at entrance F16 will be closed. Reference to the waste room at entrance F16.
- W12, the waste room at entrance F18 will be closed. Reference to the waste room at entrance F18.

Nearby businesses have received further information. If you have any questions or need coordination, contact the Project Manager on telephone 073-083 48 47.

**Students house**
Official opening inaugurated on Wednesday 4/3!
