Midsummer and a short work week, a milestone in the working year. The weeks after midsummer will be a journey towards summer activities and upcoming vacations.

I think, at least for my own part, that this is going to be a fantastic summer, perhaps precisely because of the prevailing circumstances in the world.

More time for socializing with closest relatives, less planning and fewer planned activities. In short, a little more “Mañana” and relaxation!

I wish everyone a nice midsummer and that the weather will be with us during this most Swedish of our holidays!

Coming/Ongoing activities w25-26

Overall Campus
Previously implemented adjustments of the business at Akademiska Hus office still apply.

Measures to reduce the risk of spreading the Corona virus have been taken by both Akademiska Hus and its suppliers and weekly dialogs to evaluate the situation is taken.

Outdoor environment
A lot of work is ongoing, mainly along Regnbågsallén. We apologize for the disturbance and appeal that everyone respects the barriers.

Spring cleaning of the Campus outdoor environment will be finalized.

Concrete foundations for plantings between the C-house and the S-pavilion will be renovated during the summer.

Renovation of flagpoles is carried out during the summer.

Luleå Energi performs valve replacement at district heating and dig up a shaft on Universitetsvägen at the access road to the parking lot behind Teknikens Hus. No roads will be blocked off, but limited access is a consequence until week 27.

Regnbågsallén
Opened for traffic between the A & D house. It is currently ongoing work at the intersection of Regnbågsallén-Vintergatan and as a result it is closed for car traffic on the northern part of Vintergatan. Vehicle traffic is referred to northern Geogränd or Regnbågsallén between the A- & D-building from Tekniktorget. This will be valid until the end of week 25. However, pedestrians have intact access to the northern part of Vintergatan.

Continued work is ongoing between the A- & B-house and the area will be closed off until end of June. Entrance B2 will be closed on Monday 15/6, referral for visitors to the library is entrance B8 which will be kept open during the library’s opening hours. Reference signs will be provided.

Work between the B & E house begins week 26 and the area will be closed off for passage, referral via Laboratoriegränd. Affected entrances to the B-house, E7 & E9, will be kept alternately open. Initially, entry and exit passages are referred to entrance E9.

A/a-house
Complementary controls for the performed indoor environment investigation will be conducted in the A-house during week 26-27. Some noise disturbance may occur. Affected businesses will receive more detailed information during week 25.

Renovation of the auditorium A117 “LKAB hall” has begun. An airlock will be built in the corridor up to the building entrance at Universitetsvägen to avoid dust spreading.

B/b-house
Nothing to report.

C-house
The planning for the replacement of exterior walls is ongoing.

The renovation of the former Career Center to Project Studio for Akademiska Hus for upcoming projects has been started and is being carried out during the summer.

The fire central in the C-house will be replaced during weeks 27-28.

The project team for the construction of the U and V pavilions thank you for a good cooperation during the assembly time. Continued work will now take place within the work area.
Information letter week 25-26
Luleå University of Technology

D-house
Nothing to report.

E-house
Extension of lab E631 is carried out during the summer.
Adaptation of Lab E283 continues through Week 27

F-house
Projecting for measures of walls at Heavy Lab as well as Graphic Services is ongoing. Work is expected to begin in the summer.
Continued internal work to complete the T-Pavilion is ongoing. LTU has started moving furniture into the pavilion.

K-house
Renovation of the exterior wall continues according to plan.

Students House
Nothing to report.

Polstjärnan
NCC has started completing external areas.
Construction of bicycle storage west of the house is ongoing.
