CHALMERS

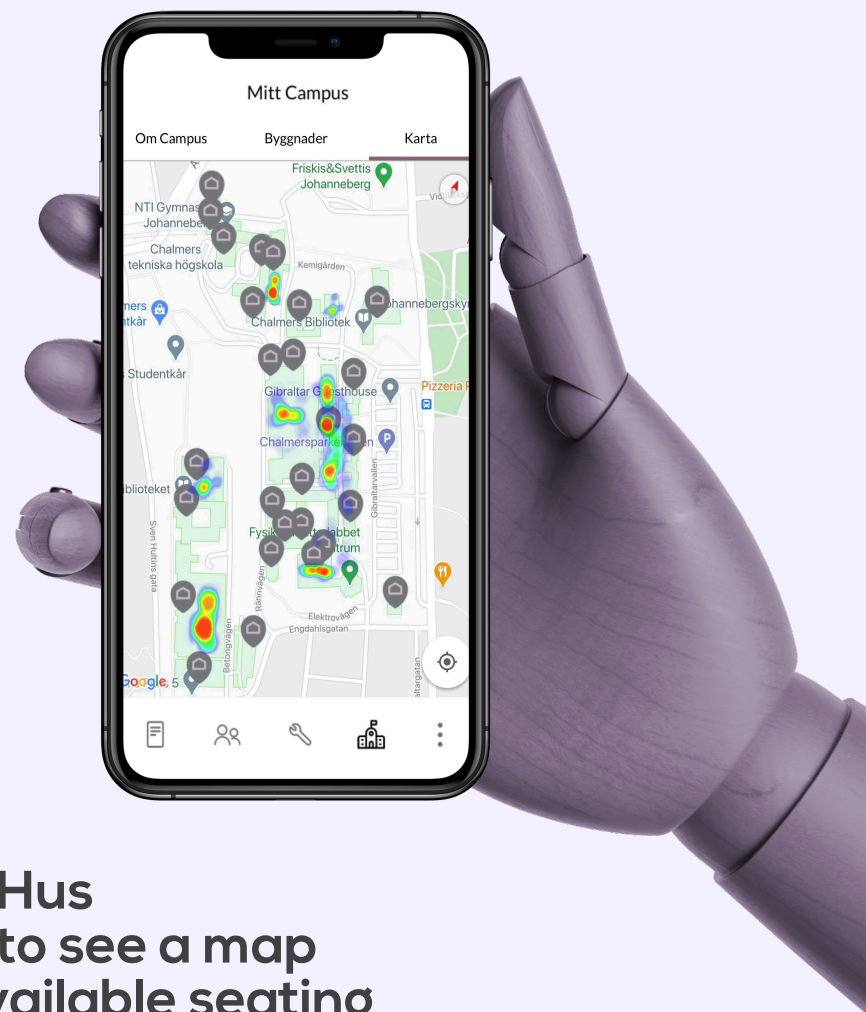

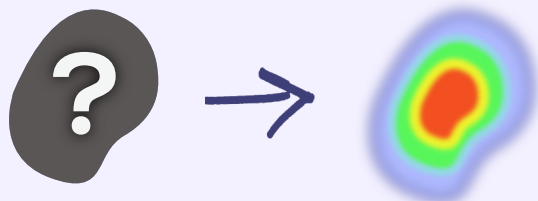

AKADEMISKA HUS

The Akademiska Hus Challenge
IKA097 - Leading in a digital world

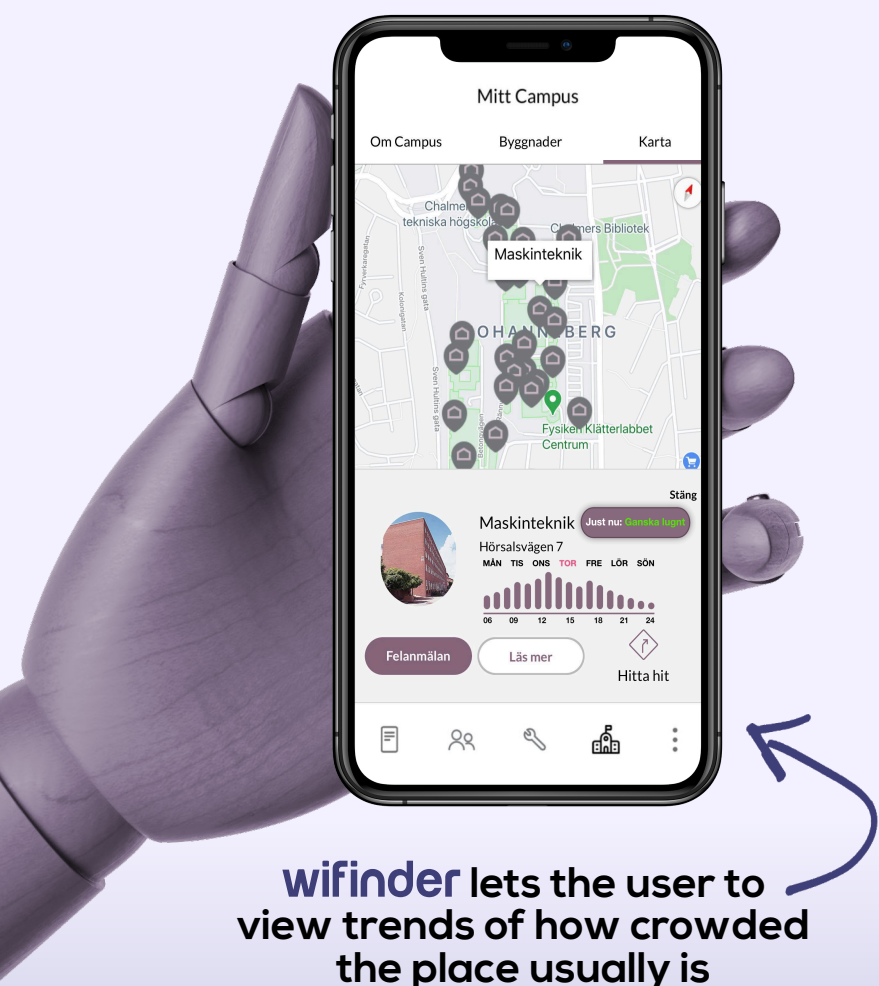

Are you tired of crowded
spaces at Campus?
Of course you are, who isn't?

With **wifinder** the
Akademiska Hus
app MittCampus
goes from average
to superior

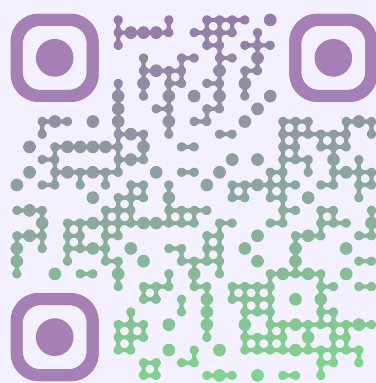

How does **wifinder** work?

wifinder implements wifi-tracking into Akademiska Hus
already existing app MittCampus. This allows users to see a map
of crowded spaces on campus which helps to find available seating

wifinder lets the user to
view trends of how crowded
the place usually is
