

Updates from Medicinareberget

Newsletter October 2026

Hello!

It is now time for a new information newsletter about Medicinareberget. A great deal is happening in the area, and several new initiatives are also planned for the future. With this newsletter, we aim to continue gathering and sharing overarching updates about what is happening on Medicinareberget and in the surrounding area – as a way of supporting those of you who work and study here in your day-to-day activities.

The newsletter is distributed approximately once a month, and the information is also published on an ongoing basis on the Medicinareberget campus page at www.akademiskahus.se.

The recipient list has been put together based on who we believe will find this information useful.

If you know someone else who would like to receive the newsletter – or if you'd prefer to be removed from the mailing list – you're welcome to reply to this email or get in touch with Tony Wolf.

Parking

The area where the parking deck previously stood at Medicinaregatan 18 is now open for parking again. From mid-October, work will begin to further improve the area and enhance safety on campus.

Parts of the car park may be temporarily closed at times. Please follow the signage on site. The work is scheduled to be completed before Christmas, weather permitting, as suitable conditions are required for the resurfacing work.

The car park at EBM (Rundeln) is closed due to refurbishment work in the building, where a crane is currently in place. The car park will remain closed for some time.

Updates from Medicinareberget

Newsletter October 2026

Parking outside Odontologen has been restricted to a maximum of two hours in the row closest to Odontologen, to ensure that patients are able to find parking during the day.

Work is also currently under way, and will continue until mid-October, to improve the lighting in the car park. As part of this work, sections of the area will be resurfaced and the parking bays remarked. Parts of the car park may be temporarily closed at times. Please follow the signage on site.

Food and foodtrucks

Unfortunately, Bistro Science at Medicinaregatan 8 has decided to close its business. The bistro is still available to book for events but is otherwise closed. Akademiska Hus is working to find a new operator for the premises.

Other cafés and restaurants at Campus Medicinareberget include Café Anatomen at Medicinarelängan, Hälsocafét at Hälsovetarbacken, Restaurang Salt & Syra by Natrium, and Restaurang Lyktan at Lyktan/Wallenberg. In addition, food trucks regularly visit the campus and are located by Academicum.

Parcel lockers at Medicinaregatan 9D

PostNord has installed five new parcel lockers outside the entrance to Medicinaregatan 9D, Health Innovation Labs. The parcel lockers are available for deliveries and collections, providing an improved service on campus.

Window replacement at Medicinarelängan

We are currently replacing the windows on the mezzanine floor of Medicinarelängan. The work began near Salt och Syra and will finish near LNC shortly after the new year. The aim is to replace the windows in one room per week.

The work is not expected to have any significant impact on operations, apart from in the room where work is taking place at the time. The indoor temperature may be slightly lower while the window is being replaced.

LED lighting

The replacement of indoor lighting is ongoing across the campus. The work at Academicum has been completed, while work at Hasselbladslaboratoriet and LNC has begun and is scheduled to be completed before the end of the year.

Traffic disruptions around Medicinareberget

Several projects in the area will affect access for motorists, pedestrians, cyclists and public transport around Medicinareberget in the coming months.

Works at Guldhedsgatan and Medicinaregatan

As part of Göteborgs Stad's development of the Guldhedsgatan area, including new housing and a preschool, Göteborgs Stad and Akademiska Hus are taking the opportunity to jointly improve the junction where Medicinaregatan branches off towards Biomedicinska biblioteket and the allotment area. The junction will be made clearer and safer for motorists, cyclists and pedestrians. Akademiska Hus has begun preparatory work, and Göteborgs Stad will take over in mid-October.

Göteborgs Stad's work includes the construction of a new local road, widening of the pedestrian and cycle path along Guldhedsgatan, rock blasting and the relocation of overhead line poles. The work is expected to take place from October 2026 to September 2027 and will periodically affect access along Guldhedsgatan. Access to Medicinareberget will remain open.

Medicinaregatan's northern car park will also be affected. During the construction period, parts of the car park will be used as a site compound, with up to approximately 180 parking spaces temporarily unavailable. Once the work has been completed, the car park is expected to have approximately 230 spaces, compared with around 300 today.

Please follow the signage on site and stay up to date with the traffic situation via Current roadworks – Göteborgs Stad. Read more about the project on the Göteborgs Stad [website](#). If you have any questions about the project, please contact Zirian Khwaja, Project Manager at exploateringsförvaltningen, Göteborgs Stad: zirian.khwaja@exploatering.goteborg.se.

Sahlgrenska Life will also affect traffic

At the same time, Västra Götalandsregionen's (VGR) work on Sahlgrenska Life will affect access in the area. Internal demolition work in the old Ortopedihuset is scheduled to begin shortly, followed by external demolition in early 2027. During the works, one lane on Per Dubbsgatan will be closed, and traffic on Medicinaregatan may be affected periodically.

Zoologen

The scaffolding has been dismantled, and the spaces inside Zoologen are nearing completion. The first tenants will move in during December, and Friskis & Sveltis is planning a soft opening in mid-December.

Activity box with games and sports equipment

Something new arrived on campus in April! A Piffl box has been installed by the grassy area towards Hälsovetarbacken – an activity box filled with games and sports equipment that you can borrow free of charge. Perfect for a spontaneous break, a lunchtime activity or some exercise between lectures and meetings.

Ready, set, Piffl!

New on campus – Walk & Talk routes

Take a break from studying or work and recharge with our new digital walking routes! Perfect for a meeting on the move or a chance to unwind during the day.

We have created three routes, each with a different pace and character:

- [A 25-minute power walk](#)
- [A calm 20-minute stroll through Konstepidemin](#)
- [A short walk around campus](#)

Click the link to open the route – then simply start walking!

You can find all the routes here: [Walk the talk - Byt stol mot steg | Komoot](#)

Kind regards,
